Subject: Ag Park - Ground Water Well Abandonment Request
Attachments: DTSC GW Monitoring Well Abandonment.pdf; Well MW-6R_Permit Application Signed RMB.pdf; Well MW-7R_Permit Application Signed RMB.pdf

Maryam:

We are continuing to move forward with the site cleanup of the Ag Park in accordance with the approved work plan.

We need to schedule the removal of the two ground water monitoring wells that were installed in 2015 as a part of the work plan for the site.

Please see attached letter and Well Abandonment Permit documents as a part of our request to remove those two wells.

Please contact me if you have any questions regarding this request.

Thank you.
